

## Fixturing Table for Haeger 618Plus

Special Applications & Solutions for Insertion Machines

Fixturing Table for Haeger 618Plus

**Description of Application:**

Need fixture for multiple types of parts for various operations

**Customer Requirement:**

Need to fixture multiple types of parts for various operations on the Haeger machine.

**Haeger Solution:**

Haeger supplied, with a new 618Plus, a Blanchard ground plate mounted directly to the lower arm of the machine. The plate was populated with tapped holes to allow the customer to set-up fixturing as needed.

**Customer Benefit:**

The customer was able to quickly setup fixturing for different jobs, reducing changeover times.
